

## TOWN OF BERWICK BYLAW

### MOVING BUILDINGS ON STREETS

57. Any person desiring to move a building over or along a public street in the Town shall before commencing to move the building shall apply in writing to the Town Council or Committee on Streets and shall fully set out the place from and to where and the parts of the public streets over which he desires to move the building and the estimated length of time it will take to move the same. The Town Council or Committee on Streets may thereupon, in their discretion grant permission to move the said building over the public streets.
57. Before receiving permission pursuant to by-law 67, the applicant shall file with the Clerk a bond in the amount of \$200.00 with two sureties with the condition that he will reimburse the Town for damage done in the course of moving a building.
58. If it is necessary in order to move the said building to cut or interfere with any such wire or pole or with any private property the grantee of the privilege shall make the arrangement with and obtain permission from the companies or persons owning or possessing the same to do so before proceeding to move the building.
59. No person may make a connection to the Sewerage Disposal System of the Town without first obtaining the consent of the Town Clerk.
60. Any person, corporation or organization making an application pursuant to Section 70, who intends to use the system for other than domestic purposes shall submit the following information with his application:
- (a) Nature of the intended operation.
  - (b) The anticipated volume of sewage to be discharged per day in gallons per minute.
  - (c) The type and strength of discharge, and,
  - (d) The primary treatment proposed to be carried out by the user.
61. No person may empty unpolluted cooling water, storm water, petroleum products, roof or other drains nor solids from industrial wastes into the system.

62. All lateral tile connecting to the sewer mains shall be four inches in diameter unless otherwise approved by the Town Clerk (Engineer).
63. The Town shall install, for domestic users, all lateral tile four inches in diameter connecting to the sewer system to the outer edge of the concrete sidewalks on Commercial Street, and on all other Streets to a point twenty feet from the edge of the existing pavement or from the centre line of the travelled portion of gravelled streets.
64. The Town or a person acting under the supervision of the Superintendent of Streets, shall install all lateral tile connecting to the sewer mains.

History of this Bylaw:

Enacted - July 9, 1963
